## What does Rosecrance offer?

At Rosecrance we're focused on providing children, youth, adults and families the best opportunity for lasting recovery from addictions to alcohol and other drugs.

Services include education and training, prevention and family recovery programs, detoxification, inpatient and outpatient treatment, partial hospitalization, continuing care, student assistance programs in area schools, recovery homes for teens, single adults and women with children, job readiness training and alumni clubs.

For more information on community presentations, student assistance services or to request an on-site training at your school or facility, please call the Community Relations Department at Rosecrance Health Network, 815.391.1000.

## Who are the facilitators?

**Denita Lynde, B.A., CADC**, is the director of the Monarch Recovery Homes program, which serves adolescents who have completed primary substance abuse treatment. Denita is a Certified Alcohol and Drug Abuse Counselor (CADC) and holds a degree in psychology. She serves on the Illinois Task Force on Women's Issues in Treatment.

**J. Scott Nelson, M.A., NCC, LCPC, CRADC**, is a Staff Education Coordinator responsible for program development and continuing education. He is an experienced presenter of training workshops on a variety of addictions topics. Scott is a Licensed Clinical Professional Counselor, a Certified Reciprocal Alcohol and Drug Counselor, and a Teaching Associate at the U of I College of Medicine in Rockford.

**Jennifer Garcia, M.S., CADC**, has been a Student Assistance Counselor providing individual and group counseling to at-risk youth in a school setting for the past seven years. Her background includes work within the criminal justice system. She holds a Master's degree and is a Certified Addictions Counselor.

**Andrea Hudson, CADC**, Prevention Specialist, is responsible for facilitating the Drug and Alcohol Family Assistance Program for adolescent services at Rosecrance and Project Alert for area schools. Topic areas include signs and symptoms, drug trends, stages of drug/alcohol abuse and family communication skills. Andrea was an adolescent counselor for four years.
